# **PREPARATORY EXAMINATION *VOORBEREIDENDE EKSAMEN***

**2024**

## **OFFICIAL/ AMPTELIKE MARKING GUIDELINES/*NASIENRIGLYNE***

**MATHEMATICS/WISKUNDE (PAPER/VRAESTEL 2) (10612)**

**20 pages/bladsye**

**SA EXAM  
PAPERS**

**NOTE:**

- If a candidate answers a question TWICE, only mark the FIRST attempt.
- If a candidate has crossed out an attempted question and not redone the question, mark the crossed-out version.
- Consistent accuracy applies in ALL aspects of the marking guidelines. Stop marking at the second calculation error.
- Assuming answers/values to solve a problem is NOT acceptable.
- Question 7.3 will be the only question in this marking guideline to have a rounding off penalty.

**LET WEL:**

- As 'n kandidaat 'n vraag TWEE KEER beantwoord, sien slegs die EERSTE poging na.
- As 'n kandidaat 'n antwoord tot 'n vraag doodtrek en nie oordoen nie, sien die doodgetrekte poging na.
- Volgehoue akkuraatheid word in ALLE aspekte van die nasienriglyne toegepas. Hou op nasien by die tweede berekeningsfout.
- Aannames van antwoorde/waardes om 'n probleem op te los, word NIE toegelaat nie.
- Vraag 7.3 is die enigste vraag in die nasienriglyne waar afronding gepenaliseer sal word.

GEOMETRY/MEETKUNDE	
S	A mark for a correct statement (A statement mark is independent of a reason.)  'n Punt vir 'n korrekte bewering (n Punt vir 'n bewering is onafhanklik van die rede.)
R	A mark for a correct reason (A reason mark may only be awarded if the statement is correct.)  'n Punt vir 'n korrekte rede (n Punt word slegs vir die rede toegeken as die bewering korrek is.)
S/R	Award a mark if the statement AND reason are both correct.  Ken 'n punt toe as die bewering EN rede beide korrek is.

## QUESTION/VRAAG 1

Monthly salary (in thousand Rand) Maandelikse salaris (in duisend Rand)	Number of employees Aantal werknemers
$R0 < x \leq R10$	3
$R10 < x \leq R20$	4
$R20 < x \leq R30$	13
$R30 < x \leq R40$	20
