2.3 Study the extract below and answer the questions that follow:

Weak rand a tourist magnet, as their dollars go much further than back home

The rand weakened against the US dollar in seven of the last 10 years, but there has also been a massive uptick in tourism due to weaker currency. More visitors coming to South Africa means more revenue entering the country, and more opportunity for employment. Although it will take some time, the effect of the currency devaluation will ripple through the economy and have a knock-on effect throughout the country.

[Adapted from: <https://m.primepropertysa.com>]

- 2.3.1 Identify the economic concept that relate to deliberate decrease in the value of currency in terms of another currency. (1)
- 2.3.2 Name **ONE** effect of international trade. (1)
- 2.3.3 Briefly describe the term *exchange rate*. (2)
- 2.3.4 What is the benefit of surplus on the current account of Balance of payments? (2)
- 2.3.5 How will an increase in the demand for US dollars impact the value of the rand? (2 x 2) (4)
- 2.4 Discuss the *product markets* and the *financial markets* in the FOUR SECTOR model. (2 x 4) (8)

DEPARTMENT OF
EDUCATION

ECONOMICS GRADE TRIAL PAPER 1: 2024

MARKING GUIDELINE: ERRATA

QUESTION	COMMENT/ERROR	ERRATA / CORRECTION	Page number
1.1.5	Alternatives missed the correct answer in the question paper; dual economy or mixed economy	No changes, the correct answer according to the marking guideline will be accepted; developing countries. ✓✓	2
1.3.3	Two alternative answer provided; opportunity cost and marginal cost. Marginal cost is incorrect.	Delete marginal cost and be left with opportunity cost. ✓	2
2.1.2	Why are the public goods and service more readily available in the developed countries compared to the developing countries? Developing countries' unemployment rate is much higher than in developed countries because their workers are less skilled. This causes the inhabitants of developing countries to be much more dependent on public goods. The answer is not answering the question of why are they easily available in developed countries	Developed countries' employment rate is high and as a result, more people pay tax to the government which is in turn used to provide for public goods and services. ✓✓	3
2.2.2	Name ONE reason why loans are difficult to repay in South Africa?	Add another alternative answer in the marking guideline: <ul style="list-style-type: none"> • Retrenchments of workers. ✓ • Increase in unemployment ✓ 	3
2.3.5	How will an increase in the demand for dollars impact the value of a rand? The marking guideline have ONE instead of TWO facts.	<ul style="list-style-type: none"> • The value of a rand will depreciate. ✓✓ • As a result, South African imports will be expensive while exports cheaper. ✓✓ 	4
2.5	Explain how socio-economic rights are intergraded into the budget of the South African government? The answer in the marking guidelines is partially addressing the question of socio-economics rights and budgets.	Add the following: <ul style="list-style-type: none"> • Socio-economic rights are basic things that citizens of a country should have access to. ✓✓ Eg, education and health care. ✓ 	5

		<ul style="list-style-type: none"> • In South Africa, the government ensure that different states departments are allocated a certain budget to cater for the socio economic rights of the population. ✓✓ • The government pays social grant to South African citizens who need assistance to help improve their living standards and alleviate poverty. ✓✓ • A large portion of the budget also goes to the department of education to ensure that learners in disadvantaged communities have access to education. ✓✓ • Through the department of rural development, the state ensure that vulnerable people are provided with shelter / houses. ✓✓ • Government also makes allocation for the provision of basic health care. ✓✓ (accept any other correct relevant answer) 	
4.3.1	<p>Identify the rate at which the reserve bank lends money to commercial banks.</p> <p>The phrasing should have been; identify the type of rate that the reserve bank charge when lending money to businesses. Some learners may be confused and write 75 basis point or the actual current rate of 8.25% even if is not in the extract.</p>	<ul style="list-style-type: none"> • Repo rate ✓ • 8.25% ✓ 	
4.3.3	<p>Briefly describe the term fiscal policy.</p> <p>Fiscal policy is an attempt by the government to influence consumer spending through taxes.</p> <p>Short of – government spending</p>	<ul style="list-style-type: none"> • Fiscal policy is an attempt by the government to influence consumer spending through taxes and government spending ✓✓
